

HERE'S the POINT

By SPENCE HELD

Sunset Magazine, in its March issue, carried a photo of a fella flying a kite from the beach and announced that the Ocean Beach Kite Festival would be held March 19.

That's tomorrow. We're all aware, of course, that it was held last Friday, and if any wild-eyed tourists from L.A. or points north and east get in your hair tomorrow, just tell them gently that they're a week late.

Personally, I enjoyed Kite Day no end. It was the first one I'd seen and for my money it was a great success. I found myself wishing for a two-stick, brown paper job to send aloft with the others; it reminded me of my late lamented youth.

Hundreds of fathers and mothers seemed to enjoy it as much as their kids. More, in some cases.

One young mother felt harassed, however. Her little girl had come down with chicken pox that day and she had to get a baby-sitter so she could take Junior and his kite to the beach.

A flock of amateur photographers shot the scene but they were pretty frustrated. Nothing less than a big movie camera would have been adequate to catch the hundreds of colorful kites—most of them flying steadily in the beautiful ocean breeze.

Some swooped and dived and entangled their string with others. It was amazing that there weren't more casualties. A few kites were caught on telephone wires; TV antennas snagged their share.

It was a great day for the kids—and for Mom and Dad.

That mysterious parked car with the smashed windshield, described in last week's column, reminded me of the time a certain car gave up the ghost on Pacific Highway or thereabouts. The driver became fairly derate when he couldn't start it. He grabbed a tire iron and laid about him lustily. He slugged the hood, smashed the windshield, and stalked around the stalled vehicle with blood in his eye, belaboring it with one vicious blow after another.

By the time he got through, the car was reduced to junk. He beat it to death and then just walked off and left it.

Speaking of characters, did I ever tell you about the sailor who fried and ate a cat?

Yeah, he'd had a few drinks; he got hungry and rustled him some meat. Neighbors heard an unearthly howling and called the cops. When the prowl car crew busted in, they found the guy calmly eating dinner.

He had killed a cat, skinned it, and fried it a sizzling brown. "If you don't believe me, ask Police Chief Elmer Jensen. He probably remembers it; if not, I'll bet Wayne Macy does."

Me, I'm in my anecdoteage.

S. D. Dental Auxiliary All-Out for Fluoridation

At a luncheon meeting in the Loma Portal home of Mrs. C. B. Reid, 3527 Voltaire St., the executive board of the San Diego County Dental Society Auxiliary this week voted to go all-out for fluoridation.

The dentists' wives recommended a \$500 donation to the Citizens' Committee for Children's Dental Health, to help in the campaign to continue fluoridation of the city's water supply.

The executive board voted unanimously to reaffirm its stand in favor of fluoridation and volunteered to take an active part in the Citizens' Committee program of informing the public on the facts of fluoridation.

Guest speaker was Dr. Albert L. Anderson, campaign chairman for the committee. He reported there are now 930 communities in the U. S. fluoridating their water. He said, "Fluoridation has been proven a safe,

as well as a protective measure in prevention of tooth decay among children."

Dr. Anderson added: "The El Paso County Medical Society has unanimously adopted a resolution to the effect that after long years of medical practice its members have encountered no evidence of damage from the consumption of fluoride-bearing water."

"For at least 75 years, that city has used a water supply that contains more than twice the amount of fluoride we are using in our water here in San Diego."

Those attending the luncheon meeting were: Mrs. James Frame, Mrs. C. W. Gilman, Mrs. Sidney Dewhurst, Mrs. Robert Brown, Mrs. Albert L. Anderson, Mrs. Albert Bludau, Mrs. Albert Funk, Mrs. Cecil Neff, Mrs. George Gerrodette, Mrs. Edwin Martin, Mrs. Robert Parrio, Mrs. Ernest Casares and the hostess, Mrs. Reid.

Annual Kite Festival Is Brilliant Success

The annual Ocean Beach Kite Festival was only a memory this week—but it was a bright memory of a color-splashed Friday afternoon filled with happy kids and soaring kites.

Weather conditions were perfect. Sun and wind combined with a lazy surf to provide an ideal setting for at least 900 kids who launched their stick-and-paper creations in a spectacular massed flight.

Marshal Monte Hall rode in a car driven by Jim Noel, leading the parade down Newport Ave. to the beach. The smartly-stepping Lomanettes, complete with drum corps, were followed by hundreds of kids proudly carrying their kites.

On the beach, many parents helped the younger children send their kites aloft. Miss Vesta Peterson, principal of Ocean Beach Elementary School, was one of the first to get a kite into the air. Leo Calland, director of Parks and Recreation, flew one successfully, as did Councilman Clair Burgener.

Big Yellowtail Run Predicted By Scientists

With the stage completely set for the opening of the \$25,000 San Diego Yellowtail Derby on March 27, members of the Junior Chamber of Commerce's derivate committee are impatiently awaiting materialization of the yellowtail run which marine biologists predict will be the heaviest since the banner year of 1940.

Bob Collyer, scientist in charge of the Dingell-Johnson yellowtail study, reported tremendous concentrations of yellowtail around Cedros, and returning tuna fishermen this week said that the big schools had begun to stir out for the usual northward migration.

Due mainly to the three-day wind storm, which cooled off the water and left it slightly dirty, yellowtail fishing at the Coronado Islands was at a standstill last weekend, but anglers expected steady improvement as it cleared.

Most outstanding catch last weekend was a 130-pound black sea bass caught by Mel Shears. The catch was made more than a month ahead of the date on which the first black was taken last year.

Man, Wife Are Saved At Cliffs

Hundreds of Peninsula residents flocked to Sunset Cliffs Sunday afternoon to watch the dramatic rescue of a man and wife from the surf-battered rocks below. Two boys also were hoisted to safety from a cave where they had been fishing.

The excitement recalled other episodes at Sunset Cliffs.

Back in 1935 a car went over the cliffs and five persons were killed. Others have fallen to the surf-swept rocks below; some were rescued but several were not so fortunate. A two-year-old boy suffered fatal injuries last month when he fell from the cliffs.

Sunday afternoon, Mrs. Sylvia Duel, of 3636 47th St., tumbled into the surf. Her husband Delmer, plunged down to help her, and both finally were hoisted to safety by lifeguards.

Emil, 13, and Clayton Gillberg, 11, of 4418 Monaco St., later were rescued from a waveswept cave at the foot of Carmelo St. They had been fishing and were trapped by the high tide.

LOCAL WORKERS DOING TOP JOB FOR RED CROSS

Mrs. Myron Halbert and Mrs. Edward Silva have been doing an outstanding job in the Peninsula area in the Red Cross drive, it was reported this week.

Mrs. Halbert, of 1276 Trieste Dr., has collected \$444.82 in memberships and Mrs. Silva, of 3638 Alcott St., \$1,549.55.

Progress shown at the half-way mark of the campaign is excellent, according to B. F. Cogan, general chairman. The Commerce and Industry Division has reached 40 percent of its quota; Residential, 43.4 percent; Metropolitan, 18.5 percent; Public Employees, 15.3 percent; Armed Forces, 7.6 percent; County, 8.1 percent.

Comparing this to Los Angeles and to last year's local figures at this time, Cogan is confident the goal of \$459,554 will be reached by March 31.

Tribute will be paid to the women of the American Red Cross at the second report luncheon at the Armed Services Y tomorrow.

General Bradley Is UDF Chairman

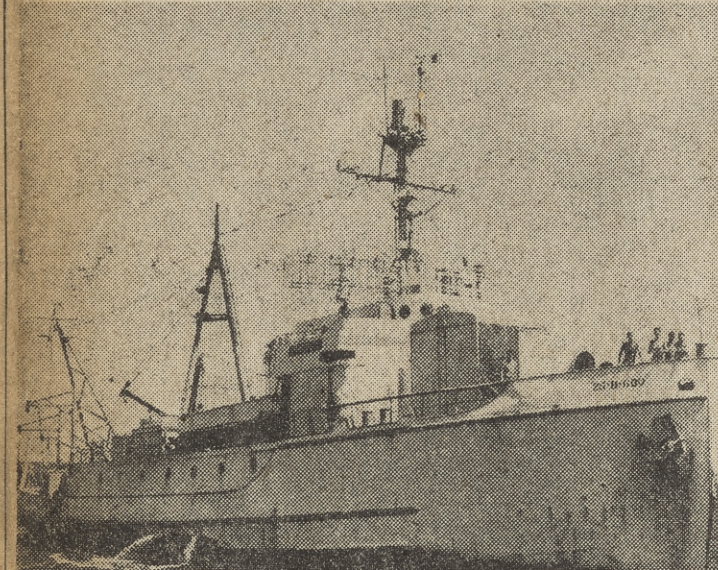

Appointment of General of the Army Omar N. Bradley as national campaign chairman for the United Defense Fund was announced this week by Michael T. Kelleher, president of the Fund. President Eisenhower is honorary chairman.

San Diego has contributed \$54,799 toward current operations of USO and other UDF services from funds raised last fall in the United Success Drive of the Community Chest.

Funds for next year, to provide services to communities hard hit by defense efforts as well as USO installations locally and around the world, will be raised in the Second United Success Drive this fall. Community Chests all over the United States will include UDF in their campaign goals.

Hailing Bradley's appointment, George Scott, chairman for the United Success Drive, said that "General Bradley's willingness to take on this job is an indication of the importance of the work being done by UDF agencies."

Mrs. Jack Shoemaker, 2022 Abbott St., has returned to her home after spending several days in Pasadena helping her mother celebrate her birthday.

Bob Wilson Spearheads Drive In Washington

Ocean Beach made itself heard in Washington this week as a big push got under way for congressional appropriation of \$690,000 to dredge the Mission Beach channel. Working with Mission Beach and the rest of San Diego in behalf of the project, the Ocean Beach Chamber of Commerce threw its weight behind a drive spearheaded by Congressman Bob Wilson and Senator Thomas H. Kuchel.

Widening and deepening of the Mission Bay channel is necessary before it can be used safely by yachts and motor boats.

Harry La Dou, president of the Ocean Beach Chamber, also pointed out that "We've been working for some time on getting a jetty built from the foot of Saratoga Ave., to prevent beach erosion. Sand dredged from Mission Bay channel could be pumped in on both sides of this jetty."

La Dou said that Chamber representatives expect to meet with the new Mission Bay commission, headed by George A. Scott, to insure united support for the entire program—including the jetty project.

Petitions were being circulated in Ocean Beach and Mission Beach this week calling upon Congress to add \$690,000 to the 1955 budget for the channel dredging.

Letters received some time ago by Charlie Freeman, O. B. Chamber secretary in answer to his telegrams urging action on the appropriation, gave assurance that Congressmen Wilson and James B. Utt and Senator Kuchel would do their utmost in the matter.

Kuchel stated: "I would like to see this project, which has been somewhat 'kicked around,' completed without any unnecessary delay."

Word from Washington this week was that Wilson and Kuchel were leading the fight for the appropriation.

Senator William F. Knowland had indicated in a letter to Freeman that he "was not particularly 'hot' for it. Knowland stated, however, that he would 'keep in mind your request.'"

Taking an active part in staging the event are several men from the Peninsula area, including Jon R. Robson, 3044 Quimby St., who is general chairman of "Insurance Day," S. Rex Gorton, 1141 Savoy St., is co-chairman. Paul Wolcott, Jr., 2677 Jonquil Dr., is serving on the advisory committee; William R. Ocean Beach Resident Is Seriously Injured

Two persons were injured, one seriously, in traffic accidents here recently and La Dou's Lumber Co. again was ransacked by prowlers.

Noble P. Steveson, of 4739 Saratoga Ave., this week faced a long stay in Naval Hospital to recover from serious injuries suffered when his motor scooter was struck by a car at Ebers St. and Brighton Ave.

Returning from work March 5, Steveson's scooter was hit by a car driven by Earl M. Anderson, of 50543 Brighton Ave., police reported.

Steveson sustained a broken femur (thigh bone), two broken ribs and a cracked shoulder blade, his wife reported, and was cut and bruised. He is expected to remain in the hospital three months.

Donald Faber, USN, was taken to Naval Hospital with minor injuries Friday after his car hit a telephone pole at Catalina Blvd. and Del Monte Ave. Driving on Catalina at an estimated speed of 55-60 miles an hour about 2 a.m., Faber attempted to turn onto Del Monte but the car went into a spin and struck the pole. Damage to the vehicle was estimated at \$650.

Prowlers broke into La Dou's Lumber Co., 4231 Voltaire St., Thursday night for the sixth time in three years, Harry La Dou reported.

"We've got bars on the windows now," he said. "But they broke a window again, noticed the bars, and then broke a plate glass door to get in. Now we've eliminated that door."

La Dou said the miscreants employed a chisel to open a money drawer but got nothing for their pains.

Portable telephone building. This small but fully equipped telephone central office was recently moved by truck from one site 335 miles away direct to Pepperwood, California. By moving it intact, telephone people cut 20% from the cost of installing a telephone system in Pepperwood. And they speeded the job by about five months. An unusual story, yes. But it shows how we're doing everything we can to bring you more service, good service, at the lowest possible cost to you. Pacific Telephone works to make your telephone a bigger value every day.

Achievement Day Held At O. B. Club

By MARIAN KRETTLER
Thursday was achievement day at the Ocean Beach Woman's Club. Honored guests came from the Friendly Club which organized for new-comers to this area was inaugurated by the Woman's Club.

A rising vote of thanks was tendered to the committee in charge of re-doing the club-rooms, and special appreciation was tendered to Don Sullivan and Ralph Moreno, building and painting contractors who presented the Club—for free, mind you—the texturing of the walls.

That wasn't all, mind you. The Stone Electrical Company donated fine fluorescent lights in place of the old-fashioned fixtures. While we realize that commercials aren't usually acceptable, we do think that these two splendid local outfits deserve a very special bow.

Miss Vesta Peterson told how the children in the local school became interested in the litter campaign, and she brought along posters done by the youngsters which promoted the ideal of a tidy Ocean Beach.

Another achievement project by the local club is "Safety on the Highway." Officer Howell was the guest speaker. He told about conserving the activities of juveniles when it comes to driving, and especially accentuated the power of the new cars, which creep up on speed before the driver becomes aware.

Club members were pleased when president, Mrs. Sylvan Planson spoke on KGB Saturday morning, telling about the activities and history of her favored organization. Her voice came through clearly, and her report was concise. She came here a stranger, but found friends and activity in the Ocean Beach Woman's Club. We like her too.

March 28, from one to three in the afternoon, the Cosmo Club will welcome local clubbers to a tea in Balboa Park. April 12 and 13, delegates will attend the County Convention at the Presbyterian Church at Fourth and Date streets.

Saturday, April 3, the Ocean Beach Junior Club will have a luncheon and fashion show at the Kona Kai Club. We are all invited, and the Juniors are entitled to much encouragement for their community efforts.

The Book Review meeting has been changed, on account of the illness of Lloyd Davis, from that residence to that of Mrs. George MacDonald, 4982 Saratoga. Hour, one o'clock, when Mrs. Frank Swan will tell about "The Age of the Moguls." The date is March 22.

The usual social hour followed the lengthy business meeting, and a competent committee in charge.

Christian Science Text Is 'Matter'

"The grass withereth, the flower fadeth: but the world of our God shall stand for ever," declares Isaiah (40:8) in the Golden Text of the Sunday Lesson-Sermon on "Matter" in all Christian Science churches.

The Gospels abound with instances in which Christ Jesus nullified false material laws. In Matthew's Gospel it is related that when the disciples were "in the midst of the sea, tossed with waves, . . . Jesus went unto them, walking on the sea." "And when they cried out for fear . . . Jesus spake unto them, saying: Be of good cheer; it is I; be not afraid." (Matt. 14:24-27)

In "Science and Health with Key to the Scriptures" Mary Baker Eddy writes, "Jesus walked on the waves, fed the multitude, healed the sick, and raised the dead in direct opposition to material laws. His acts were the demonstration of Science, overcoming the false claims of material sense or law." (p. 273).

Spotlights

By CHERIE STRAUSS

Orchids to... Charlie and Ella Mae Brown, two wonderful people, who are seeing a dream come true in their Town & Country Hotel and Club. The private club section is now under construction and should be completed in April. Here's to you, folks! May the success of your new venture scale the heights of your own combined congeniality!

Headlights—Each morning at 8 a.m. finds a group of Ocean Beach business men in the Korner Malt Shop mulling over the fight events of the night before. Sideline comment overheard: "These men obviously don't get enough fighting at home!"... Dotty Blake is sporting a tan early this year...

Father Spicer-Smith back from his trip into Mexico looking better than ever!... The Darryl Johnsons (Strand Theatre) are knee-deep in new home planning... The "House Trailer" bug has bitten a number of our Ocean Beach friends. Rollin Reed (Bank of America) has joined the clan. In case you are one of those who have secretly yearned for a trailer, but have been leary of the "pull" on your car, let Rollin put you straight!... Jo and Fred Edwards were married 47 years March 11th. Jo says: "My youngsters used to ask me if Dad meant everything he said! That was the \$64 question, and I couldn't answer it then—but I sure could now!" (Scuse please, Jo, it was too cute to keep!)

Pause for the day... "Happiness is a perfume you can not pour on others without getting a few drops on yourself"... Ralph Waldo Emerson.

Field Trips Extend Learning

Cabrillo Elementary school's classroom "walls" were extended from the southernmost tip of Point Loma to the sandy shores of Del Mar during this month. Continuing their program of utilizing the community as a classroom to provide first-hand information, four field trips were scheduled at the school.

All Aboard

Several of Miss Charlene Muelman's first grade children enjoyed their first train trip when the class took a round-trip to Del Mar. Picnic lunches and a story hour were enjoyed on the beach between trips.

"The Grocery Store," a first-grade unit of work, was brought to life for Mrs. Emily Hobb's class by a walk to a market in the Point Loma Village.

The classroom studies of Indian Life were enriched for third graders by an instructive visit to the San Diego Museum of Man. Mrs. Frances York arranged this trip for her students.

Potluck & Quaterly Meeting Of Civic Committee Apr. 10

Representing many organizations of Ocean Beach, about fifty people met Monday evening in the Community Center for a pot-luck dinner and to make plans for the Center's seventh anniversary to be held April 10. Mrs. Gerber was chairman for the dinner that brought praise from the diners.

Jack Hoxie, of the Recreation Department was guest speaker, talking principally of the new shuffleboard courts and the recent Convention held in Santa Rosa—the largest of all annuals conventions ever held. "Recreation concerns everybody," he said, and even told of one top taken up at the Convention of the possibility in the future of not a 40 hour week for people, but a 32 hour week, thus giving people more time for recreation.

Chairman Olson also attended the convention.

A greater part of the evening's business centered around the Tournament of Wheels, the Doll Show and the Variety show, all events planned for the Anniversary Day. Anyone in the community is invited to enter these events and are asked to contact the Center. Tryouts for the show will be held March 29th, and anyone with dancing, singing, or other talents are asked to be present.

The next quarterly meeting will be held in July with the Friendly Club of the Community Center in charge.

Woman's Club Members Journey To Hollywood To See Shows And Stars

By MARIAN KRETTLER

It may appear to be a simple matter to charter a bus going to Hollywood to visit various TV programs, but Mrs. Fred C. Thompson, energetic ways and means chairman of the Ocean Beach Woman's Club found herself involved in many problems between the bus company and the thirty-five women intending the trip. The inevitable cancellations, the acceptance of those on the waiting list, but everything went off smoothly Wednesday morning when, at six a.m. the venture was undertaken.

Ensued was a nice sum for the Woman's Club, which was much appreciated with the new obligations for the financing of Club building improvements.

And, wor the fee of five dollars, the clubwomen had a busy day. Mrs. Thompson had previously informed the various TV executives that her group would attend the programs. She received no acknowledgement excepting Jack Bailey, the genial host of "Queen For A Day."

Jack Bailey introduced president, Mrs. Sylvan Planson, and asked the Ocean Beach clubwomen to rise. They received a heart-warming greeting and were especially delighted when Mrs. I. A. Hegeler had a winning ticket for the preliminary selection of candidates.

Attended were Art Linkletter's show, Bob Crosby's event, "Queen For A Day", and a new program featuring La Plancher. Two other events were scheduled, but by that time eats were in order and a return home.

Mrs. Thompson is planning other such trips, with the co-operation of "Helen", no commercial please, the fine bus driver and the arranger of tickets. The next tour may include a peep at Cinerama, a visit to Forest Lawn and to the Huntington Library. Details not as yet completed.

Music Teachers To Hold Fete Tuesday Night

There will be a music program. A number of distinguished guests have been invited to attend.

Community Center Does This Week

Wednesday, March 24th the Square Dancers will hold a mid-session roundup combining both the intermediate and beginners classes.

Each Monday evening at 7:30 the Henry George School of Political Science meets in the Craft room, continuing until 9:30 p.m.

"INFORMATION POLICE"

When a person is injured what should you do before the arrival of a doctor or the police? How would you stop bleeding? What should you do if a bone is broken? What can you do to make the victim more comfortable?

These questions and many others will be answered by Officer Lloyd De Vore of the San Diego Police Department when he covers the basic "firsts" in First Aid on the "Information Police" show this Saturday, Mar. 20, 6:00 to 6:30 p.m., KFSD TV Channel 10.

KINDERGARTEN BUS RIDE

Kindergarten classes at Loma Portal school went for a bus ride Friday which took them to the Lindbergh Field and San Diego Bay. Purpose of the trip was observation of community activities, traffic signals, neighborhood centers, etc. Miss Dorothy Smith and Mrs. Elizabeth Dusenbury accompanied the children.

Scouting With Area Girls

With sack lunches in hand, thirteen Brownie Scouts of Troop 1000 visited the zoo in Balboa Park Saturday. There were Judy Boobie, Judy Clark, Charlene Coates, Eva English, Carol Lee Ghiselin, Kitty Griffith, Linda Gray.

Also, Charlene Kellogg, Yvonia Kirk, Nancy Roskam, Angela Swift, Diann Bowling and Jan Faris. Leader Mrs. Frank Roskam was assisted by coleaders, Mrs. Junior English and Mrs. Harold Coates.

A Mexican Fiesta, complete with costumes, Mexican food, games, dances, and a real "pinata" that the girls themselves made, was given by Girl Scouts of Jr. High Troop 172 Friday at the home of Mr. and Mrs. Vernon Sherwin. This party was part of their Hostess Badge, requirement.

Mrs. Francisco Medrano, who was born and reared in Mexico City, showed the girls how to make an authentic star-shaped red and white pinata, which the hostess, Betty Ann Sherwin, filled with candy bars and bubble gum. Anne Jessop took charge of the games.

Sherry Machado drew colorful pictures for the covers of the menu "en espanol". Nancy Olson made place cards, while Bonnie Armstrong and Pat Colonnell decorated the gameroom. Barbara Bates and Cheryl Dudley planned the menu with tacos, guacamole and tamale pie playing prominent parts in the buffet spread.

Congratulations are in order for Girl Scouts of fifth grade Troop 633, who have just passed their requirements for Second Class rank. Under the leadership of Mrs. Clayton Ross and Mrs. Charles B. Flack, the girls held their Court of Awards.

Sixth grade troop leaders of Point Loma Neighborhood met for a luncheon and a session on Folk Dancing Friday at the home of Mrs. Harold DePew. Learning the steps to the English folk dance, "Peascods", were

MAY CAUSE RATTLES

Remember that the fender guards attached to the bumpers of most cars are subject to pressures and vibration that may loosen them and cause them to rattle, points out the National Automobile Club. FAST AND FURIOUS—A hurricane of fast western music hit the tropical isle at Kona Kai Club Friday evening and members, dressed in cowboy and cowgirl regalia, danced up a storm while Smokey Rogers showed the crowd a thing or two about square dancing and the bunny hop "Texas style."

It was a real hoe-down for Peninsula residents and right in the middle of a "do-si-do" we noticed Messrs. and Mmes. Zel Lockwood, Alan Abel, Louis S. Ridgeway and Joe William, who, incidentally, came in second place in the square dance contest, Russell F. Chartier, 3469 Ullman St., who is building a new home higher up on Point Loma Hill, was one of the members of the prize winning square.

Among those just resting and watching were Lt. Cmdr. and Mrs. Clayton Ross, Messrs. and Mmes. Raymond Olson, Ed Glasen and Ned Crawford. Then there were Mr. and Mrs. A. Paul Sutherland who got in on everything.

LOOKING FORWARD—And, while we're on the subject, Jim Woods, genial Kona Kai manager let us in on a scoop. The club is negotiating for Lawrence Welk and his orchestra for a return engagement at the club's first birthday dance July 14. Also, it's rumored that Hilo Hattie will be among the summer attractions.

LUNCH AND LEARN—Mrs. Leo Smoller entertained members of her monthly Book Club Friday with a luncheon in her home at 604 Catalina Blvd. A discussion on the book, "Cry the Beloved Country", was led by Mrs. Sol Schultz. Others taking part were Mmes. Stan Strimling, William Podoloff, Jack Sterne, Sig Stein, Ben Cohn, and Paul Belkin.

NEW-FANGLED EDUCATION—First graders at Loma Portal school didn't have to wait until school is out in June to take a trip. They boarded the Santa Fe for a round trip to Del Mar. They weren't playing

hokey, either. It was legitimate! Since most families nowadays travel by automobile, the school plans this activity which, for many of the youngsters, is their first train ride. It's part of their study on "Trains" and it's fun.

MAIL CALL—Your reporter is drooling in her typewriter as she views the color post card off Acapulco's "Vista Panoramica", a lush verdant mountainside, dotted with very modern architecture, and contrasting with the dreamy blue water of the bay. "It's truly as beautiful as it looks", writes Mr. and Mrs. George Murdock, who sailed their Cheerio II, in the recent International San Diego-Acapulco Race and represented Southwestern Yacht Club.

Bayshore Realty Has Brisk Week

Real estate has been brisk through the offices of the Bayshore Realty, 4222 Voltaire St. Among their numerous sales was a four unit deluxe apartment building at 3030 Poe St. The buyer was John Engstler of Chicago while the seller was Frank Hurtat.

Also among the sales of the week were 4336 Niagara avenue, buyer being Lt. Cmdr. L. G. Doughty with the seller being G. R. Tatum, the dwelling at 4488 Del Monte was bought by William V. Stein of the U. S. Navy from M. L. Anderson.

School Camping Trips Combine Fun-Education

By DANIEL C. VOTAW

One hundred and twenty-five pupils of the sixth grade of the Ocean Beach Elementary School recently returned from a week's camping education experience at Camp Cuyamaca in the mountains, and every one declared it was the most exciting experience in their seven years of elementary school.

What made this camping experience so successful? There was no one factor but rather many operating together to give these children the fun and memories, combined with knowledge gained, that will stay with them a long time.

This camping is not done just for the fun of it. Rather, it is a well-planned educational experience to bring to the boys and girls the type of learning that is not possible in the confines of the four walls of a classroom.

Eagerness To Learn
Camp offers twenty-four-hour-a-day living where the out of doors is used as the text book. Camp life provides a setting that calls forth an eagerness to learn of the things of the out of the door; that invites activity and encourages doing some think about it; that fills the camper with a spirit of adventure, exploration and discovery; and that stirs within him emotional and spiritual responses to the beauty of nature.

A sixth grader is prepared for the adventure he is to have at camp. For about two weeks previous, work in the classroom is devoted to planning and studying about what he is likely to see and do at Camp Cuyamaca. Conservation is the major point of emphasis in the classroom pre-camp work and in the activities at camp.

This exploring of the surrounding countryside, which leads to important discoveries about bird and animal life, Indian villages, rocks, and plants, streams and valleys and mountain peaks; this construction of objects with native clay, soapstone, chaparral, cones, bark and moss; this doing work about the camp which needs to be done; this singing songs of the out of doors; this practicing of conservation by planting of trees, building check dams, preventing the spread of the pine beetle, practicing fire prevention and using woodsmanship; these and many other projects are what make camp the most thrilling experience in the sixth grade.

6th Grade Activity
Yet camp is only one week out of forty in the life of a sixth grader and school continues in the classroom for the rest of the year. What are some of the grade?

In history and geography he is keeping up with the current news and events of the world. He is learning how man has solved the problems of transportation and communication in the past and what man is doing about them at the present. As for other parts of the world, he makes a detailed study of the area and people of Latin America. He thinks more intently about the United States as he writes down his thoughts on the pledge of allegiance and why he is glad he lives in America. Every minute is filled with action. The sixth grader is taking

they can.

Arithmetic brings several new processes. The pupil learns how to add and subtract more difficult fractions, to improve his skill in long division and multiplication and how to divide and multiply fractions.

As the end of the sixth grade approaches, the pupils look back on what they have done throughout the elementary school with a feeling of pride and accomplishment. The days and years have flown by and now the step to junior high school will soon be taken.

Army Reserve Offers Much To Young Men

Many of the parents of our young men 17 and 18 years old are rather hesitant about consenting to the enlistment of their sons for service in the Army Reserve as there is the feeling that early enlistment will mean service in the Active Army at a much younger age. This is quite a natural concern; however, it is without foundation. A man enlisting in the Army Reserve will only be called to active duty when his draft board notifies him that

in accordance with the timetable and the quotas, he is needed for active service.

A young man who enlists now has many opportunities to better himself not only in the Army Reserve, but likewise in the regular Army. The young man who joins at an early age may be with the program long enough to obtain the rank of Corporal or higher. When he is called for active service, he may be called with the rank he holds in the Army Reserve. It is true that he will not be a "well-seasoned veteran," but he will have acquired a certain amount of "know how" to make him a standout among other inductees who have had no prior military

service. While in basic training, he will be a leader among other inductees. Once basic training has been completed, our reservist will be in much better position to qualify for Officer's Candidate School or other specialized training.

Within the confines of a few short lines, it is difficult to give more than a thumbnail sketch of the advantages offered the younger men. It must be realized that not only will the individual concerned be working toward retirement of his eighth year military obligation which is mandatory under law, but will be working toward the security and well-being of the community.

Should you desire further information concerning the Army Reserve program in general or a particular phase thereof, contact personally or by mail your

Army Reserve Training Center, Building 140, Fort Rosecrans, or call ACademy 3-3168.

SPECIAL ANNOUNCEMENT! BEGINNING MONDAY, APRIL 5th PENNEY'S WILL REMAIN OPEN MONDAY AND FRIDAY. TILL 9 P. M.

BENEATH THE SURFACE

— with —
LEE C. POOLE

Last week we discussed whether you would die TESTATE or INTESATE—and you and I surely will die, sometime.

We also urged you to have a Will drawn or to review your old one. Why? For the very important reason that we do not know when our last day will drop from the calendar and we become just a memory to our friends and to those whom we love.

Last week we mentioned that the late Chief Justice Vinson died suddenly and legally INTESATE. Another prominent American died about the same time. It was Senator Taft. Senator Taft had a warning of death. He was able to have his Attorney and family in. He drew his Will while literally on his Death Bed. Senator Taft got under the wire, so to speak, and substituted his own desires for the impersonal state of jurisdiction over his estate. Almost certainly, Senator Taft saved for his beneficiaries much that otherwise would have gone in Death Taxes (although possible savings in Death taxes is not always the most important reason for a properly drawn Will).

Should a wife have a Will too? Usually, yes. While the following case illustrates the need, it by no means represents the only reason why a wife should also have a Will.

Mr. & Mrs. Somebody were happily married. They had two children. A son by Mr. Somebody's first wife and a daughter of their own. Mr. Somebody drew a Will leaving all his property to Mrs. Somebody knowing, in the event of his death, Mrs. Somebody would care for her step-son as her own. Mr. Somebody was killed. For several years, Mrs. Somebody did care for her step-son as her own. But Mrs. Somebody died too—legally INTESATE, for she had no Will.

All of the property Mrs. Somebody received by Will from her husband as well as her own property went to the little girl. Her little half-brother was disinherited. Clearly, this was not the intent of Mr. Somebody or Mrs. Somebody—neither of them provided, when they could, for the contingency that did happen. The law governing their situation could not impute the intent that most certainly Mr. &

Mrs. Somebody would have expressed had they had the help to properly cover the circumstances that did develop in their situation.

The whole point we are trying to make is this: The statutes governing the distribution of your property when you die are impersonal. Why leave these impersonal rules in a complete jurisdiction when your Attorney can put your very personal desires into a properly drawn Will?

Should you have any questions on this important subject, address them to the Editor or telephone AC-3-5954. A non-technical discussion often materially assists a person in presenting the Attorney with well thought out personal wishes, and the Will he draws then meets the personal needs completely.

R. F. Maves Plan New Home In Area

Mr. and Mrs. Robert F. Maves announced this week that they are building a home on Trieste and LaPaloma. This new home will have 1800 square feet of space and will be done in a contemporary motif.

The exterior design will be of stucco and red brick with ample planters to set off the house style. The roof will be of rock type finish. The living room will have a 200 degree radius view and the kitchen will be completely electric.

An outstanding feature will be the center fireplace which will have a raised hearth in the living room and a flush hearth in the activity room. The new house will also have a large dining room. The master bedroom

Joint Workshop Set This Weekend

San Diego city and county school administrators will discuss modern physical education and school health programs at a special one-day Health Education Workshop this Saturday (March 20) at the city schools' Education Center, Park Boulevard at El Cajon.

Delbert Oberteuffer, Ph. D., head of the physical education department, Ohio State University, and internationally known authority in health and physical education, will be the main speaker.

The workshop will open with a registration period from 9:30 to 10 a.m., according to Glenn Arnett, coordinator of health education for county schools and chairman of the workshop planning committee.

Bertha Posk Given Award

An Ocean Beach resident has received an award of a certificate by the National Office Management Association, it was announced today by J. Wilson Getsinger, Supervisor of Business Education, San Diego City Schools.

Mrs. Bertha Posk, 4442 Monaco, is a student at the San Diego Vocational School. The award certifies that she has passed satisfactorily examinations in stenography for beginning office workers, according to criteria set up by NOMA, a representative group of management in almost every type of industry.

DID YOU KNOW?

Members of the Ocean Beach Seventh-Day Adventist church will invest Saturday in a launch, announced Dr. Roy Berrett, Sabbath School Superintendent.

The new launch, the Superintendent explained, will join a fleet of seven medical missionary launches now operating on the large inland waterways of South American. One such floating mission station, he said, has treated an average of more than 5,000 people a year for over 20 years.

The need for medical help along the great rivers of the Latin continent is urgent, Dr. Berrett stated, and it is impossible to reach the people except by boat. The new launch, purchased and staffed through a portion of the combined thirtieth Sabbath offerings of

North American Adventist churches, will serve the people along the 800-mile long Araguaia River. It will also serve the 15 large tributaries of this river.

Combined with the medical assistance will be a teaching program designed to help lift the prevailing low health standards of the natives.

Besides the fleet of launches, Superintendent Berrett said, the church operates five hospitals and six clinics in South America.

This is but a small portion of the denomination's worldwide medical missionary program.

The Ocean Beach Seventh-day Adventist church cordially invites the public to worship with them at eleven o'clock Saturday mornings in the beautiful Pt. Loma Methodist sanctuary, corner of Saratoga and Sunset Cliffs Boulevard.

RAILROAD CROSSINGS

It takes enormous braking power and a considerable distance to bring a long passenger train or a fast freight to a stop. That is why, according to the National Automobile Club, the wise motorist always treats railroad crossings with a great deal of respect. He comes to a full stop and takes a good look up and down the tracks before venturing over. He's careful at the crossings, and he doesn't get himself killed.
